# Samiun Alim Auntor

Pursuing Software Engineering at IUT | Full Stack Developer
( MERN ) | Exploring System Design, Databases, Networking &
Cloud Computing
Dhaka, Bangladesh

## Summary

I am a Software Engineering student at the Islamic University of
Technology, specializing in web development and building full-stack
applications with the MERN stack. I am passionate about learning
and creating practical solutions.

• Technical Expertise : Full-Stack Development with MERN
(MongoDB, Express, React, Node.js), Firebase Authentication,
REST APIs, and database design. Experienced in building
responsive, user-friendly web applications.

• Achievements : Completed multiple academic and personal
projects involving full-stack web apps; expanding backend and
database skills for scalable SaaS applications. Hands-on experience
with Git/GitHub and deployment workflows.

• Passion & Goals : Motivated by learning and building impactful
solutions. Exploring system design, backend architecture, and
database management to grow into a well-rounded full-stack
developer.
